## CRITICAL PEDAGOGY AND REVOLUTIONARY PRAXIS IN THE AGE OF IMPERIALISM

**Peter McLaren**

**Professor, Graduate School of Education, UCLA**

**Professor McLaren will discuss critical pedagogy and revolutionary praxis, paying particular attention to the current crisis of capital and its globalized restructuring, the emergent authoritarian state and a racialized class system. He will explain the importance of developing a philosophy of praxis as a means of both explanatory critique (gaining historical knowledge of the social totality) and revolutionary action (opportunities for political intervention).**
