Counterpoints: Studies in the Postmodern Theory of Education, volume 295

Rage and Hope is a collection of the most controversial and provocative interviews granted by Peter McLaren over the past decade, with the majority of them occurring since 2000. These interviews offer a lucid and penetrating window into the thought and humanity of one of the world's most influential critical educators. This book will be an indispensable resource in courses on critical pedagogy, the sociology of education, critical theory, cultural studies, political science, multiculturalism, post-colonialism, and the social foundations of education.
