

Getting Started with Pianex

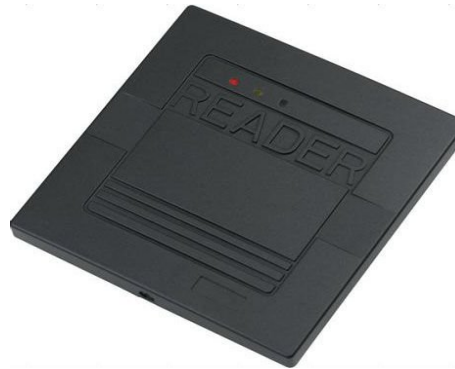

The set up process for the connected piano is remarkable simple.

Start by attaching the RFID sensors to the piano keys.

1. Attach the sensors to the piano keys using the self-adhesive backed tags.

Attach the RFID reader to the piano

Use the self-adhesive backed RFID reader to attach to the right side of the piano. Attach the reader so that it is approximately located parallel to the piano keys in order to facilitate the most accurate sensing of the movement of the keys of the piano.
