

:...: FitCouch

The premier **smart** couch that is both stylish and your guide to a healthy lifestyle!!

“**FitCouch** is one of the best investments I have ever made! My kids love it!!”

-Katherine Moss, *Techie Geek Magazine*

The **FitCouch** is both an item of comfort and the way to healthy lifestyle. The purpose is help users engage with the biometric data within the couch to assess activity. In the age of binge watching with services like Netflix, HBO Now, and Amazon live streaming, it is important to continue to move around to stay fit and healthy!

- The **FitCouch** offers quick personalization to incorporate your favorite schedules with workouts that do not interfere with time in front of the television.
- The **FitCouch** works well with many wearables on the market today like the Jawbone UP, Fitbit, and Apple Watch, just to name a few. It has its own app that shows statistics, data, progress and sets goals and reminders.
- The **FitCouch** App shares the gathered information with other apps like Daily Burn and MyFitnessPal.
