### Water Conservation

- Uses 45% less water/yr
- Ceiling projection improves water usage awareness
- EPA approved waterflow
- Data visualizations help users modify behavior over time

### Health

- Doctor approved
- Easy to clean spray holes
- Healthy temperature and shower length statistics

### Personalization

- Algorithms store user temperature, pressure, and music preferences
- Adjustable shower head height
- Login app allows users to use preferences with any Showermate

## Why Choose Showermate?

Showering is the third largest water usage in America.

Users want to conserve water in California but not with quality cost.

Showermate increases awareness but retains quality.
