American Household Water Usage

Average Shower in America

Water Conservation Tips

TEMPERATURE

Reduce hot water usage to save water heater energy.

FLOW RATE

Showerheads with an EPA WaterSense label use no more than 2.0 gallons per minute.

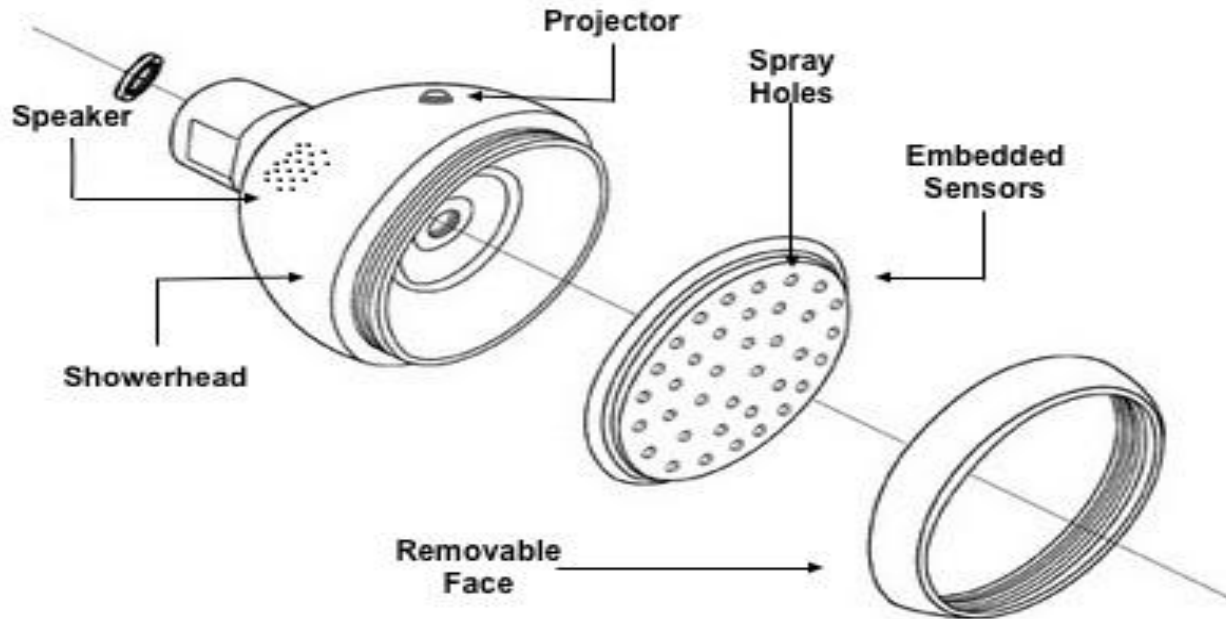

SHOWER LENGTH

Try taking a shower at around 5 minutes by turning off the water while shampooing and washing the body.

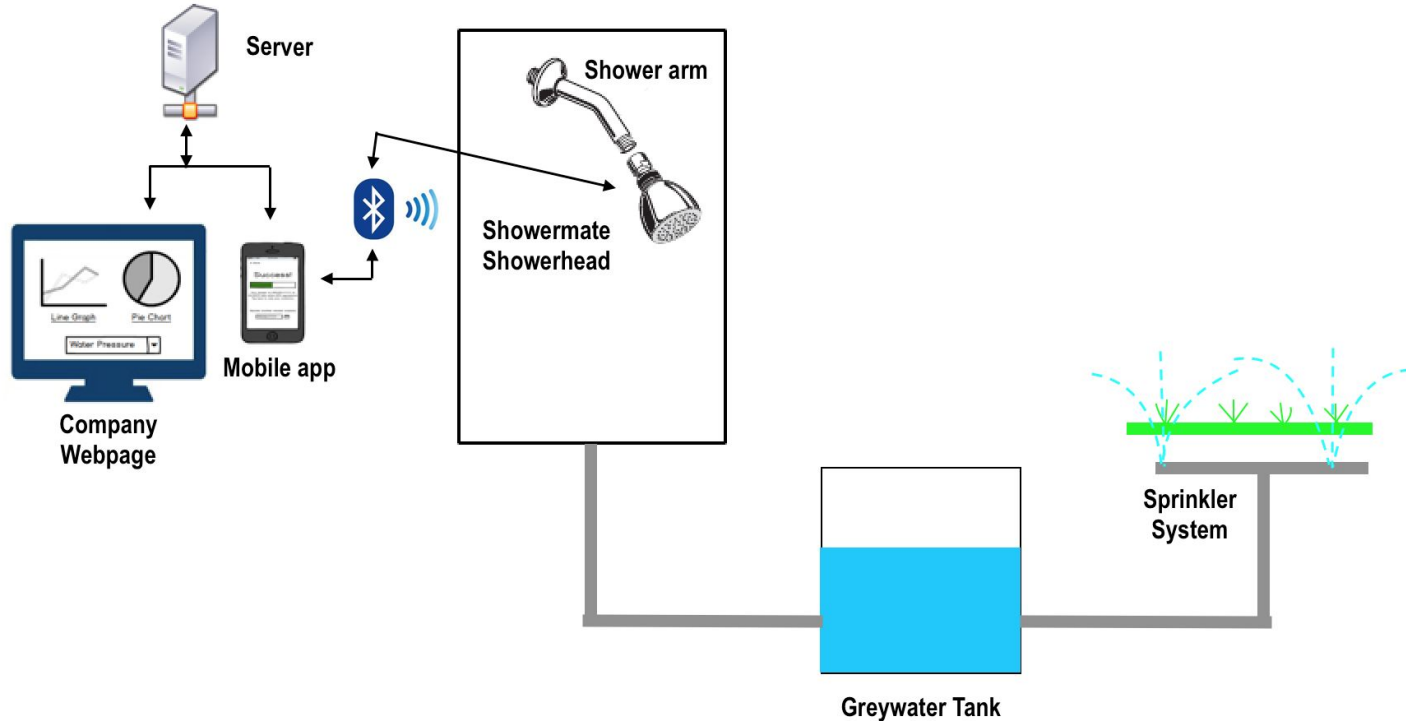

RECYCLING

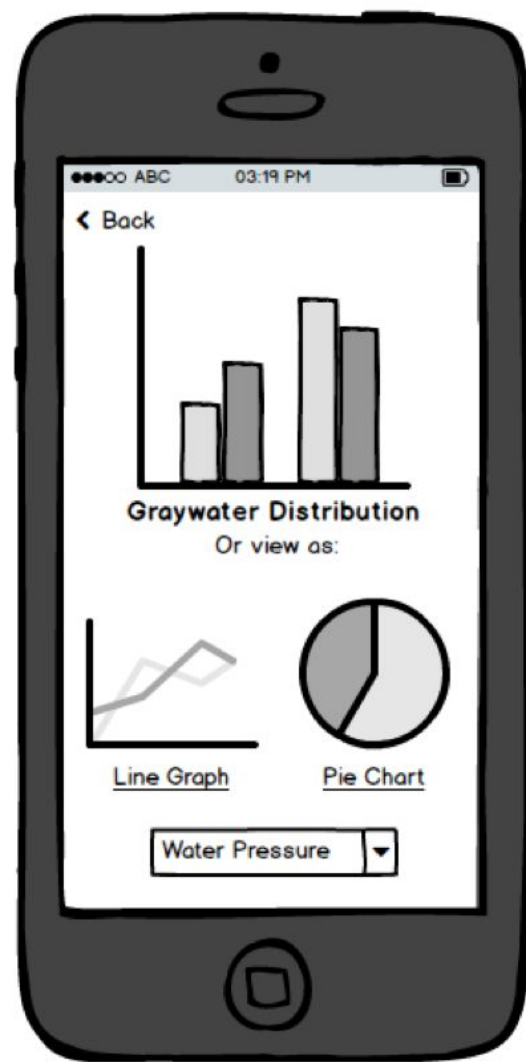

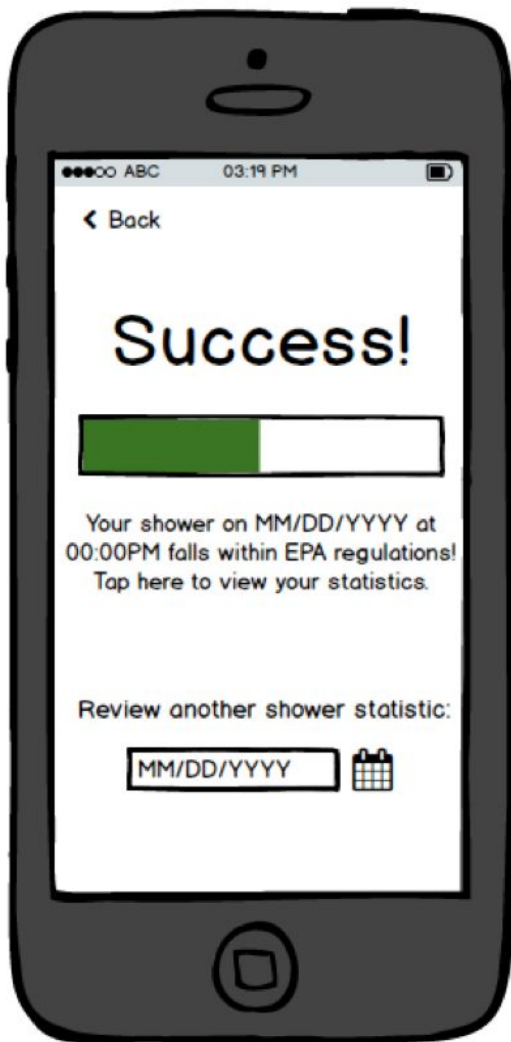

Collect the normally discarded cold water in a bucket and use it to water plants, clean dishes, or wash clothes.

We Tried Showermate And It Was Everything We Dreamed Of

It's time to make showering great again.

Hygienic? Good. Environmentally conscious? Good. Personalized? Good, good, good.

We don't blame you if you are sick and overwhelmed by the influx of "smart" gadgets and their annoying apps, but we may have found the one you really only need. It's called Showermate.

So How Does it Work?

It uses embedded sensors and algorithms to track how you like to take a shower and modifies it so it's both a comfortable and sustainable experience. While it does come with an app (of course), it's still remarkably user-friendly. We tried it out to see if it lives to the hype.

Showermate inspires “healthy” competition in Alameda County

IMAGE 1 of 1 | Showermate Design Front and Back

Residents of Alameda County took to Twitter last night with the Trending Topic [#ShowermateComp](#) to spawn some friendly rivalry amongst neighbors. Tweets such as “Save Water, Shower Together [#Oakland](#) [#ShowermateComp](#)” took storm in this battle of eco-friendly competition.
