A Remote That Only Plays The Movie "Cujo"
 How many times have you been home alone and thought, "I'd really love to watch that 1983 classic killer dog movie Cujo, but it's not on, and I don't own it on DVD because I'm not insane?" Well leave those worries in a hot car to fight off a rabid Saint Bernard, because this remote solves that very problem. The CUJO remote transmits an uncomfortable, yet non-harmful, high-frequency sound audible only to a local cable provider and/or anyone nearby that bought that movie.
